**MEMORANDUM ON THE OBJECTS OF THE
DRAFT AGRÉMENT SOUTH AFRICA BILL, 2013**

BACKGROUND

The Board of Agrément South Africa was established through a delegated authority by the Minister of Public Works in 1969. The delegation to the Board of Agrément South was subsequently revised and updated in 1999 by the then Minister of Public Works, the Hon. JT Radebe, MP. The Board of Agrément South Africa is mandated to, among others, evaluate the fitness-for-purpose of non-standardised construction related products or systems for use in the construction industry, and for which a national standard does not exist.

The Board of Agrément South Africa serves a national interest by being internationally acknowledged as an independent South African centre serving the building and engineering communities by providing assurance to specifiers and users through technical approvals of the fitness-for-purpose of such non-standardised construction related products or systems.

A review of the performance of the Board of Agrément South Africa has revealed that its lack of legal status, as well as it reporting to two Ministries (that of Public Works and of Science and Technology), has negatively impacted on the effective discharge of its mandate. The Board of Agrément South Africa's lack of legal status has, in addition, created ongoing audit challenges regarding the classification of the financial transfers made to it, through the Department of Public Works. Due to the Board's current lack of legal status, transfers made by the Department of Public Works to Agrément South Africa, under transfers and subsidies, are being classified by the Auditor-General as irregular.

PURPOSE OF THE BILL

The Bill seeks to establish Agrément South Africa as a juristic person and make the Public Finance Management Act, 1999 (Act No 1 of 1999), as amended, applicable to it. The objects of Agrément South Africa are reaffirmed in the Bill, as follows:

- (a) to provide assurance to specifiers and users of the quality and value for money of non-standardised construction related products or systems. Agrément South

Africa assesses the fitness-for-purpose of such products or systems, and if satisfied with the quality thereof, Agrément South Africa may certify fitness-for-purpose through the issuing of an Agrément Certificate. Agrément South Africa is empowered to amend or withdraw a condition stipulated in a Certificate or to impose a new condition and to renew, suspend or withdraw a Certificate. PARLIAMENTARY PROCEDURE

The Office of the Chief State Law Advisor and the Department of Public Works are of the opinion that the Bill should be dealt with in accordance with section 75 of the Constitution of the Republic of South Africa, 1996, as it contains no provision to which the procedure set out in section 74 or 76 of the Constitution applies.

The Department, furthermore, is of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Amendment Act, 2003 (Act No 41 of 2003) since it does not contain provisions pertaining to customary law or customs of traditional communities.
