3. Foreword by the Minister

It is with great pleasure to present the Annual Report 2016/2017. Once again, the Department has achieved a fifth consecutive clean Audit from the Auditor General South Africa. Let me take this opportunity to congratulate staff and all involved in running the affairs of the department prudently.

The National Development Plan (NDP): Vision 2030 is our nation's blueprint and programme to build on our achievements, and to decisively confront our challenges.

The NDP is the overarching plan that seeks to fulfil the aspirations of the majority of South Africans, and black people in particular. It underpins our developmental endeavours, and informs the policies and strategies spearheaded by government.

The mandate of DPME is to ensure that government programmes advance the NDP and achieve the desired outcomes and impact, and to promote improved implementation.

Our departure point is that we have an overarching long-term national development plan in the NDP, towards which government has prioritised 14 measurable Outcomes in its current Medium-Term Strategic Framework 2014-2019, as the first five-year implementation agenda for the NDP.

This Annual Report therefore captures the highlights of achievements of DPME in the past financial in relations to its mandate, but also identifies areas of improvements. The annual report should not be read on its own, but as one part of our comprehensive annual reporting package which is done through other programmes such as the detailed reporting on the implementation of the NDP through the MTSF and PoA.

Through our monitoring function, DPME's task is to report to government through Cabinet (which we do on a quarterly basis), as well as report to the nation, on our performance against our objectives, and to do so without fear or favour.

No plan or strategy to achieve long-term socio-economic change can succeed without a mechanism to periodically measure performance and provide critical feedback to ensure we improve our collective efforts and results.

To this end, DPME will conduct a mid-term review of government performance against its plans and programmes, based on the reports of departments, and drawing on independent evidence and data.

Preliminary findings indicate that government is implementing and monitoring too many priorities. We now need to focus on a limited set of apex priorities that will give us maximum impact for the remainder of the current electoral cycle.

Some of the key highlights of the work of the DPME in the past financial year was the strategy review exercise. The strategic thrust of the strategy review exercise was to strengthen and integrate all aspects of the current planning, monitoring and evaluation systems. The strategic review identified critical weaknesses in the country's planning system.

To this end, changes are required to streamline and improve planning systems and effective coordination mechanisms. DPME will be engaging with stakeholders in the financial year 2017/18 to create enabling legislation to bring required changes. The aim is to streamline and consolidate the overall government planning system and related legislation, in order to better advance the implementation of the NDP in an integrated manner.

Another key area is the alignment of planning and budget allocations to NDP priorities across government. Despite several reforms since 1994 to improve the resource allocation process, including the Public Finance Management Act, the Medium-Term Expenditure Framework and Budget Policy Statement (MTBPS), there is widely felt the need to strengthen the alignment of the national budget to NDP goals and targets.

It is important to acknowledge that the achievements are a collaborative work with other stakeholders. We express here our appreciation of all those who have contributed to the departmental achievements. In particular, this report is only possible because of the hard work and dedication of our staff and partners.

Mr Jeff Radebe (MP)

Minister in the Presidency for Planning, Monitoring and Evaluation

Date: 31 August 2017

4. Statement by the Deputy Minister

As the department responsible for the coordination of youth development across government, the DPME is well placed to ensure that government's youth development approach aligns with the priorities of the National Development Plan Vision 2030 and the National Youth Policy 2020.

We have been monitoring the implementation of the five key priorities of our NYP 2020. Our monitoring shows similar patterns of steady progress towards youth development and empowerment as in other areas of the NDP/MTSF priorities. More, however, still need to be done.

The strategy and organisational review exercise, provides the department with an opportunity to strengthen its capacity to facilitate youth development across government and society. The key tasks of the Youth Programme will include the development and review of youth legislation and policies; stakeholder management and support; monitoring and evaluation of youth development across all spheres of government; and conducting NYDA oversight.

In the past year, the DPME started developing a national Monitoring and Evaluation Framework for the National Youth Policy. The framework will be used to ensure effective monitoring and evaluation of high impact interventions of the NYP 2020. It will also enable the gathering of data to assess progress on the relevance, efficiency, effectiveness, sustainability, and impact of interventions when implementing the NYP 2020. The framework will support our institutionalization of youth development across government.

The DPME commissioned an evaluation of the National Drug Master Plan. The evaluation noted that the plan appropriately covered the three pillars of harm reduction, demand reduction and supply reduction. However, the evaluation also identified policy incoherence around harm reduction, with law enforcement criminalising users and addicts and thereby working against the public health approach of restorative justice.

The evaluation also identified the need for the plan to provide implementation details for subnational levels of government and the need to sufficiently translate this macro-plan in sector plans or Annual Performance Plans (APPs). Drugs and substance abuse have caused much pain in our society and families, however the evaluation concludes that the real size and scope of the substance abuse problem in South Africa remains unknown as it is insufficiently researched. We are working with the Department of Social Development as well as other key departments in the Social Cluster and social partners, to enhance the effectiveness of our interventions.

In the next financial year, we will continue to monitor and report on the five key priorities of our NYP 2020 being education, skills development and second chances; economic participation and transformation, health care and combating substance abuse.

We will continue to vigilantly monitor the implementation of these interventions.

Mr. Buti Manamela (MP)

Deputy Minister in the Presidency for Planning, Monitoring and Evaluation

5. Report of the Accounting Officer

5.1 Overview of the operations of the department

The key operational focus areas for the department are planning, monitoring and evaluation as well as youth development.

5.1 Overview

The year 2016/17 is the second year that the department is implementing its mandate as the Department of Planning, Monitoring and Evaluation, following the proclamation in 2014, which brought together the previously separate functions of Planning, Monitoring and Evaluation under one department and Minister at the centre of government.

During this period, the DPME continued to roll out existing programmes, while at the same time reviewing its Organisational Structure and Strategy to better fulfil its mandate as a department responsible for both Planning, Monitoring and Evaluation.

Institutionalising Planning

The work on planning entailed continuing to provide secretariat support to National Planning Commission (NPC) which provided the National Development Plan (NDP).

The Department also conducted consultations with national departments and provinces on discussion document on institutionalising planning in government in the post NDP period. This culminated in a policy framework on planning, which proposes the consideration of legislation to consolidate the national planning system and clarify the role and functions of DPME in this regard.

A key new planning activity the Department undertook in the period under review is the process to better align the national budget to NDP priorities. This has resulted in Cabinet decision for DPME to conduct priority setting on an annual basis prior to the yearly budget process led by National Treasury, in order to ensure that budget better supports the implementation of the NDP by government.

Monitoring

DPME's monitoring has continued to focus on the fourteen (14) outcomes identified in the Medium Term Strategic Framework 2014-2019, as government's first five (5) years implementation programme for the NDP. The department produced quarterly reports for consideration by Cabinet for the 14 Outcomes, highlighting areas of progress, challenges and recommending corrective action. These reports have been made public through the DPME POA website.

Other monitoring activities have focused on the quality of management practices in national and provincial departments, through the Management Practices Assessment Tool, as well as on various services delivery facilities through unannounced and announced visits, some of which are led by the President and the Minister.

Evaluation

Evaluations and research are essential to ensuring that government policies and programmes are based on evidence, thereby enhancing their impact. The department thus far has 59 evaluations completed or underway covering programmes in the Education, Economic, Human Settlements and Agriculture sectors among others. The DPME is also championing the evaluation discipline across government, with 7 provincial evaluations now in place, 102 provincial evaluations underway and 60 departments now having evaluation plans.

Youth Development

Youth development is a key component of DPME mandate. Having championed the adoption of a Youth Policy in the 2015/16 year, the department has been promoting the implementation of the policy across government, focusing on getting departments to make more explicit and strengthen youth-specific aspects of their programmes and expenditure. For this purpose, a monitoring and evaluation framework for youth development has been drafted, also the Deputy-Minister has been leading the Coordination of youth development under the Presidential working group on youth.

Review of Strategy and Organisational Structure

The department completed a review of its strategy and organisational structure with a view to better conceptualise the mandate of the DPME and how it will be executed. Key areas of emphasis from the exercise are the need for DPME to act as supervisor of the work of government guided by the NDP, to promote coordinated and effective planning and implementation and enhance accountability across the whole of government, including public entities and state-owned companies. For this purpose, the department was allocated additional funds to increase its capacity to execute its mandate.

Conclusion

The DPME has a challenging but exciting mandate. Ultimately our work must result in improved performance of government in achieving the goals and targets of the NDP, working with all stakeholders outside of government. As a relatively young department, we have made an important beginning in this direction and through our work in 2016/17 we continue to shape DPME into a tool for making government effective in delivering on its actives and being accountable to citizen, particularly those who most need government to improve their conditions of life.

Finally I wish to take this opportunity to thank Minister Jeff Radabe and Deputy Minister Buti Manamela for their leadership, guidance and for holding us to high standards. Thanks also to all staff members for your hard work and commitment to public service, to commissioners of the NPC and members of the Audit Committee for your oversight and advice.

5.2 Overview of the Financial Results of the department

5.2.1 Departmental receipts

The Department does not provide services for which fees are charged. The Department received R1.215 million for recovery of the previous year's expenditure, administrative revenue for staff parking and the staff bus, interest earned, commission on garnishee orders and the sale of assets.

Programme Expenditure	2016/17 ('000)			2015/16 ('000)		
	Final Appropriation	Actual Expenditure	(Over)/ Under Expenditure	Final Appropriation	Actual Expenditure	(Over)/ Under Expenditure
1. Administration	142 453	134 299	8 154	111 872	111 872	-
2. Outcomes Monitoring & Evaluation	93 162	89 749	3 413	90 087	89 560	527
3. Institutional Performance Monitoring & Evaluation	62 412	61 897	515	60 626	60 626	-
4. National Planning	88 233	84 216	4 017	75 632	70 736	4 896
5. National Youth Development Agency	411 402	411 085	317	415 983	415 983	-
TOTAL	797 662	781 246	16 416	754 200	748 777	5 423

The Department spent 97.9% of its allocated budget. Under-expenditure on compensation of employees was due to delays in implementing the new organisational structure of the Department pending the approval by the Department of Public Service and Administration.

5.2.3 Virements/roll overs

No rollovers were approved for the 2015/16 financial year. Net virement of R3.275 million from Programme 4 was utilised for operational expenses under the remaining programmes. Details are provided in the Appropriation Statement under Part E: Financial Information.

5.3 Unauthorised, irregular and fruitless and wasteful expenditure

The Department has effective measures in place to prevent and detect irregular and fruitless and wasteful expenditure.

- During the year under review the Department recorded R350,000 in possible fruitless and wasteful expenditure due to cancellations of travel arrangements and events and damages to vehicles. R164,000 was still under investigation as at 31 March 2017.
- The Department incurred irregular expenditure relating to the current financial year of R40,000. R3,000 has been condoned and R37,000 is still under investigation.
- The Department did not incur any unauthorised expenditure.

Detailed information on irregular and fruitless and wasteful expenditure is available under Part E: Financial Information, notes 22 and 23.

5.4 Future plans of the department

The main focus of the department in the short to medium term will be on the institutionalisation of national planning and strengthening monitoring systems as envisaged in the MTSF 2014-2019.

5.5 Public Private Partnerships (PPP)

The Department did not enter into or participate in any PPP contracts for the period under review.

5.6 Discontinued activities / activities to be discontinued

The Department did not discontinue any of its activities during the 2016/17 financial year.

5.7 New or proposed activities

The Department has conducted a strategy and organisational review to strengthen its focus on planning, monitoring and evaluation as well as to play a more effective role on youth development. In addition, greater focus will be placed on monitoring the role of State Owned Entities in advancing the implementation of the NDP and MTSF. The additional activities are included in the Annual Performance plan. Key amongst these are:

- Develop and implement a planning policy framework for the sequencing and alignment of plans to improve government's planning and delivery
- Facilitate alignment of planning and budget allocations to NDP priorities across government (Resource Planning and Prioritization). Produce a Budget Mandate Paper (as an annual process)
- Conduct midterm review of government performance
- Design and implement strategic interventions to support implementation

5.8 Supply chain management

No unsolicited bid proposals were concluded by the Department. The SCM unit currently does not experience any significant challenges but will require additional capacity if the Department continues to grow.

5.9 Gifts and Donations received in kind from non-related parties

Gifts and donations received from non-related parties are disclosed in the Annexures to Part E: Financial Information.

5.10 Exemptions and deviations received from the National Treasury

The Department did not request any exemption from the PFMA/Treasury Regulations or from financial reporting requirements during the financial year.

5.11 Events after the reporting date

The Department in June 2017 investigated allegations of possible irregularities by its head of supply chain management. Following the investigation, the employee was charged in July 2017 with various counts of corruption and breach of departmental policies. The employee subsequently tendered his resignation.

5.12 Conclusion

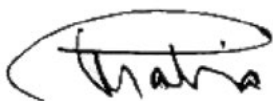

The task of the DPME is to report to government and the nation on our performance on the plans we have been implementing, and the responsibilities of other role-players outside government, and to do so without fear or favour.

No strategy and programme can succeed to achieve progressive socio-economic change in line with the vision and objectives of our Constitution, without a mechanism to measure performance and provide critical feedback to ensure we improve our collective efforts and results.

The DPME is tasked with serving as this mechanism, and to act as the mirror through which as government and the nation, we know where we are doing well and where we are failing, and in this way to influence future performance and the necessary corrective decisions and measures.

In this regard, the NDP serves as the vision and roadmap for socio-economic development to radically reduce poverty and inequality, and transform the economy and society for shared prosperity and national unity

Let me take this opportunity to thank the Minister and Deputy Minister for their leadership and guidance and for holding us to high standards. Thanks to all staff members, Commissioners of the NPC and Audit Committee members.

Mr Tshediso Matona

Acting Director General: Department of Planning Monitoring and Evaluation

Date: 31 August 2017

6. Statement of Responsibility and Confirmation of Accuracy for the Annual Report

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed throughout the annual report are consistent.

The annual report is complete, accurate and is free from any omissions.

The annual report has been prepared in accordance with the guidelines issued by National Treasury.

The Annual Financial Statements (Part E) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

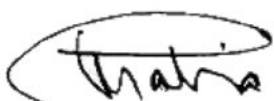

The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.

The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the department for the financial year ended 31 March 2017.

Yours faithfully

Mr Tshediso Matona

Acting Director General: Department of Planning Monitoring and Evaluation

Date: 31 August 2017

7. Strategic Overview

7.1. Vision

Improved government outcomes and impact on society

7.2. Mission

To facilitate, influence and support effective planning, monitoring and evaluation of government programmes aimed at improving service delivery, outcomes and impact on society

7.3. Values

A learning organisation

Our values are inspired by our desire to be a learning organisation. We value innovation, partnerships and feedback. We do not do the same things over and over when they are clearly not working.

Our staff

We value our employees and therefore we strive to create an environment that allows them to grow and to be innovative. We will create an environment that enables our staff to:

- Act with integrity
- Practice Ubuntu
- Respect self and others

Our customers

We shall at all times be exemplary in all respects. This includes being people-centred and service-oriented.

Our performance culture

Our performance culture is influenced by our commitment to:

- be outcome-oriented
- pursue progressive and quality management practices in order to achieve value for money, efficiency and effectiveness
- produce quality outputs
- pay attention to the basics, such as
 - o not being late for meetings
 - o running meetings efficiently
 - o responding to e-mails, phone messages and all other requests timeously
- be accountable and transparent.

8. Legislative and other Mandates

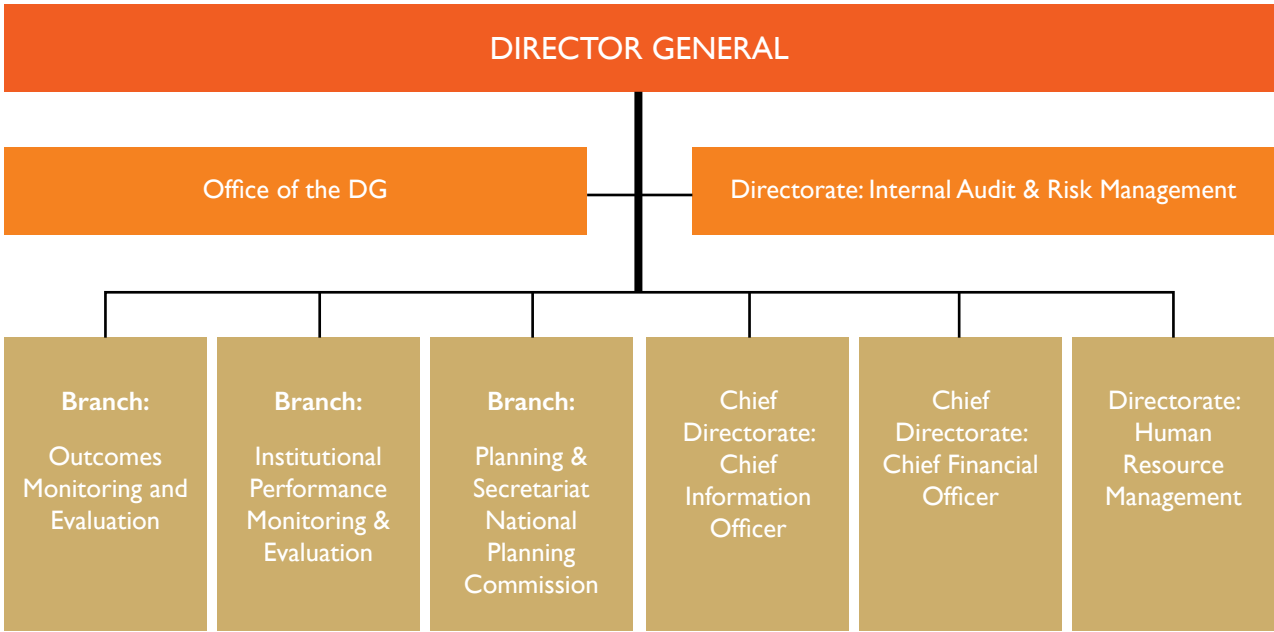

The mandate of the Department of Planning, Monitoring and Evaluation is derived from section 85(2) (b-c) of the Constitution of the Republic of South Africa which states that the President exercises executive authority, together with the other members of the Cabinet, by developing and implementing national policy and coordinating the functions of state departments and administrations. In addition, the following policy documents outline the mandate of the Department:

Legislation/policy
1. The Constitution of the Republic of South Africa, 1996
2. Proclamation no.47 of 2014
3. National Development Plan 2030-Our future make it work (2012)
4. Green Paper on National Strategic Planning (2009)
5. Framework for Strategic Plans and Annual Performance Plans
6. Policy framework for the Government-wide Monitoring and Evaluation Systems (2007)
7. Improving Government Performance: Our Approach (2009)
8. National Evaluation Policy Framework (2011)
9. Cabinet decisions

The mandate of DPME has been given concrete expression by the President in his 2010 and 2011 State of the Nation Addresses as well as various Cabinet decisions; and by the “Policy Framework on Performance Monitoring and Evaluation - Our Approach” document and the “Revised Green Paper: National Planning Commission,” which were tabled in Parliament.

In addition, the Minister in the Presidency for Planning, Monitoring and Evaluation outlined a clear set of interventions that should be undertaken by the Department. The Annual Report therefore incorporates the goals of improving expectations on service delivery through programmes and initiatives of the Department for the year under review.

9. Organisational Structure

10. Entities Reporting to the Minister

The table below indicates the entities, that reported to the Minister during the financial year under consideration. Related party transactions are included in the disclosure notes to the Annual Financial Statements (Part E).

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
National Youth Development Agency (NYDA)	National Youth Development Agency Act	Transfer payments	Support youth empowerment
Statistics South Africa	Statistics Act, 1999 (Act No. 6 of 1999)	None	Advance the planning, production, analysis, documentation, storage, dissemination and use of official and other statistics

PART B: PERFORMANCE INFORMATION

I. Auditor General's Report: Predetermined Objectives

The AGSA currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives heading in the Report on other legal and regulatory requirements section of the auditor's report.

Refer to page 107 - 110 of the Report of the Auditor-General, in Part E: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 The National Development Plan (NDP) 2030 Implementation Overview

The NDP 2030, which has been adopted by diverse sectors of society in South Africa, both state and non-state actors, constitutes the programme through which our country advances radical economic transformation. The rationale for the development of such a long-term plan is the recognition that to bring about the complex changes in the social and economic structure and culture of society given our history of oppression, exploitation and dispossession, requires a coherent vision of the future. Addressing these complexity requires a common set of objectives, actions and priorities would to drive growth and development over the long term. The South African developmental state we seek to build must have visionary capacity, a long-term orientation, and organisational and technical capacity to translate policies into practical programmes and projects.

In the second phase of transition to a National Democratic Society we need "... to speed up the implementation of programmes of change in pursuit of shared prosperity, social justice and human solidarity".

Substantial progress has been made in establishing South Africa's planning system. The appointment of the NPC, and the establishment of the function of planning, monitoring and evaluation at the centre of government provide a comprehensive institutional framework for planning to drive the developmental agenda toward the goal of a National Democratic Society.

The Plan sets out the following key objectives:

1. Eliminate income poverty – reducing households with a monthly income below R419 per person (in 2009 prices) from 39% to 0.
2. Reduce inequality – the Gini coefficient should fall from 0.69 to 0.60.
3. Reduce unemployment rate to 6% by creating 11 million more jobs by 2030.

Crucially, adoption of the NDP provides the strategic framework for medium and short-term planning to occur within the framework of the long-term vision and development path of the NDP. Government therefore produced the Medium Term Strategic Framework (MTSF) to ensure that over successive 5-year periods, the state is able to put the country on a positive trajectory towards achieving the priorities of the NDP 2030

Planning, Monitoring and Evaluation as key for implementing the NDP 2030

The consolidation of the planning function with performance monitoring and evaluation has laid a solid basis for coordinated planning, execution of policies and performance enforcement across government. The Presidency has become the strategic centre of government to drive:

The National Development Plan and its implementation through the Medium Term Strategic Framework (MTSF);

1. Prioritisation through the budget mandate paper.
2. Strategic oversight over state owned companies.
3. The National Spatial Development Framework.
4. Measuring performance and impact through evaluations.
5. Building a data and knowledge base to inform planning and implementation, facilitate reflection on performance, learning and innovation.

There is a need to codify and institutionalise the planning, monitoring and evaluation function through legislation. Planning, monitoring and evaluation does not only happen at national levels of government.

Evaluations are informing performance improvements

Evaluation is important for analysing what works, why, and for whom. 59 national evaluations are completed or underway and 102 provincial evaluations planned, covering R143 billions of government expenditure. The system is being institutionalised across government, and 7 provinces and 57 departments now have evaluation plans. Some cross-cutting learnings are emerging:

1. Some programmes are working well, creating jobs and promoting economic growth.
2. Weak programme planning.
3. Services often not targeted enough.
4. Behaviour change services weak
5. Administrative arrangements often poor
6. Data is often inadequate.
7. Coordination weak across government departments.

Highlights of the midterm review 2014-2016

Areas of key progress

As reflected above the midterm review of progress demonstrates that South Africa is a better place in 2017 than it was in 1994. Progress has been made towards realising the goals of NDP 2030, across the economic services, social services, building a capable state and fostering active citizenry. However, progress is uneven across sectors. A need exists for more effort from the state, society and businesses to work towards meeting the 2030 goals.

Areas of limitation

The Midterm Review 2014-2016 suggests that government is monitoring too many priorities – which are accorded equal weighting and status. Government's focus and resources are therefore spread too thinly – particularly in a constrained fiscal environment. Performance on NDP 2030 actions which require cooperation across multiple departments, levels of government or non-governmental stakeholders shows poor implementation progress. Furthermore, lack of adequate information systems in government to track progress towards the NDP 2030 is also a key challenge.

The review arrives at an array of other key findings and recommendations, which are highlighted. In terms of sustaining our focus on the 14 outcomes of government, the review suggests that government must:

1. Conduct root cause analysis to understand implementation and impact constraints.
2. Review implementation skills.
3. Develop recovery plans for actions which are lagging behind target.
4. Develop granular action plans.
5. Develop recovery plans for actions where progress has declined since 2013.
6. Review coordination mechanisms across different government department, levels and with stakeholders.

All hands must be on deck during 2017-2019, as we collaboratively overcome binding constraints identified during the midterm review and implement a smaller set of effective interventions that accelerate our momentum towards the priorities espoused in the NDP 2030.

2.2 Service Delivery Environment

The service delivery environment was characterised by a strategic and organisational review of the department during 2016. The aim of the review was to focus and strengthen the efforts of the department on improving government delivery and outcomes.

To effectively deal with the challenges identified and to bring the required improvements, DPME worked on developing a draft framework for institutionalizing planning. Once finalised, the framework will inform the drafting of a planning legislation. For the remainder of the electoral cycle, the Department will be focusing on the finalisation of the planning framework and legislation for planning.

The Department started work with the Department of Rural Development and Land Reform (DRDLR) to finalise the proclamation to expedite the transfer of the Spatial Planning function to the DPME.

In addition, the Department started work on the National Spatial Development Framework (NSDF) and to build capability to develop sector specific plan aligned to the NDP in partnership with relevant sectors, beginning with the finalization of the Water Sector Plan by during 2017.

The Department also produced the first budget priority document directed towards the NDP/MTSF priorities.

In the years ahead, the Department will focus on addressing some of the challenges that could not be effectively addressed in the past financial year despite having been identified as critical by the Minister. These include creating mechanisms for monitoring of SOEs and DFIs; revise its M&E instruments to focus on tracking the impact of government interventions on people's lives; strengthen the use of evidence in planning, monitoring and evaluation including leveraging on Statistics South Africa (Stats SA) and other state institutions responsible for data collection and analysis.

2.4 Organisational environment

The Department periodically conducts organisational reviews as well as evaluations to determine the relevance of its programmes and the effectiveness of its delivery strategies. The current review was guided by both the Minister and Deputy Minister based on their delivery expectations of the department. The review focused on the strategic thrust of DPME, its operational strategies, organisational arrangements and identifying gaps in existing strategies.

The outcome of the review exposed some weaknesses in the focus and operating model of the department. For example, inadequate use of cross-functional teams to address service delivery challenges were identified. The results were over reliance on individuals with the consequence that, in the absence of those individuals, the work of the Department was compromised. DPME is also over-reliant on evidence coming from co-ordinating departments to validate performance data against the 14 priority outcomes of government. Validation done through Frontline Monitoring, Presidential Hotline and Siyahloya programmes is insufficient.

As a result of the strategy review exercise, the operating model and organisational structure of the department has been revised, notably to promote more integrated working across the Department.

To review the effectiveness of its own programmes, the Department has been evaluating its own programmes. During the year, the draft report on the evaluation of the Framework on Strategic Plans and APPs was received, and an evaluation of the national evaluation system was started. DPME is implementing the recommendations of the CBM and MPAT evaluations which completed in 2015. These evaluations help the department to ensure that its programmes are performing effectively.

2.5 Key policy developments and legislative changes

Although there were no changes in the policy and legislative environment, the reconfiguration of the departments and creation of new programmes in the course of the financial year required adjustment on the organisation arrangements and implementation strategies.

3. STRATEGIC OUTCOME-ORIENTED GOALS

The DPME strategic outcome oriented goal is to ensure implementation of the development goals and objectives of government as embodied in the NDP through effective planning, monitoring, evaluation and implementation support.

There are six immediate outcomes linked to the Strategic Outcome Oriented Goal. These are:

- Plans, policies and budgets of government departments and entities are aligned and support implementation of the NDP
- Integrated government wide M&E system used for effective supervision of government for improved service delivery
- Youth development is mainstreamed across government
- Broader society is mobilised and engaged in the development and advancement of NDP/MTSF
- Well managed Institutions for improved service delivery
- An efficient and effective department that complies with legislation, policy and good corporate governance principles

4. Capital Investment, Maintenance and Asset Management Plan

The Department does not control any fixed capital assets. Additional office accommodation is leased for the Department by the Department of Public Works on a cost-recovery basis. Details about the acquisition and disposal of assets are contained in Part E: Financial Information.

PART C: GOVERNANCE

1. Introduction

The Department commits to maintain the highest standards of governance as a fundamental principle for management of public finances and resources. The Department has established governance structures to effectively, efficiently and economically utilize the state resources. The Department upholds good corporate governance as espoused in the King III report and the Public Finance Management Act. We strive to promote good management practices in the areas of Risk Management, Fraud Prevention, Ethics, Procurement and Good Corporate Governance as well as to safeguard the Department against theft and fraud.

2. Risk management

The Department has established effective, efficient and transparent system of risk management as required by prescripts and legislations. The Risk Management Policy and Strategy were approved and implemented throughout the year. Strategic and Operational risks were conducted for all Departmental programmes. A consolidated risk register was approved and improvement plans were developed to address identified weaknesses. Quarterly risk management committee meetings were convened to oversee the implementation of improvement plans and escalated to the Audit Committee as an independent oversight structure when required.

3. Fraud and corruption

The Department has an approved Fraud Prevention Policy, Fraud Prevention and Response Strategy as well as Whistle Blowing Policy. Fraud awareness was conducted by means of screen-popups and was integrated into departmental induction programmes. Web-based reporting mechanism of any suspicious fraudulent activities have been created to provide whistle blowers with an avenue to report.

During the period under review, there were no cases of fraud and corruption reported. Although the Department is not immune from fraud and corruption, the current controls are adequate to detect and prevent fraud and corruption within the department.

4. Minimising conflict of interest

The Department has established control mechanisms to deal with conflicts of interest. Firstly, all members serving in decision-making committees are required to disclose their interests. This helps to create awareness for members of the duty to be honest in their dealing with matters that have the potential to create conflicts of interest. Secondly, members of decision-making committees sign a declaration to indicate any conflict of interest that may arise in any matter that they deal with. Thirdly, in awarding tenders to successful bidders, the Department undertakes verification processes to determine if any departmental officials have any association with the service providers, through the Companies and Intellectual Property Registration Office.

Members of senior management are required to disclose their business interests and this is verified against the Companies and Intellectual Property Registration Office records. All employees are required to apply to perform remunerative work outside of their employment as per the requirements of the Public Service Act, 1994 (as amended).

5. Code of conduct

The Department induct all new employees on the Code of Conduct for the Public Service during induction programmes. Induction workshops are conducted on a quarterly basis depending. All employees have signed the Departmental Code of Ethics and Conduct. A Supply Chain Management Code of Conduct has also been signed by officials in the supply chain management unit as well as by all Bid Adjudication Committee members. Processes are in place to address any breaches through the Disciplinary Code for the Public Service, the fraud and corruption strategy and plan as well as the whistle blowing policy.

6. Health, safety and environmental issues

There is currently no health, safety and environmental issues impacting negatively on the operations of the department

10. Internal control unit

An internal control unit was established during the 2014/15 financial year. The unit was unable to fully develop its role in the Department due to staff shortages in the SCM unit and officials from the Internal Control unit having to perform SCM support functions.

11. Internal Audit and Audit Committee

11.1. Internal Audit Scope of Work

DPME has established an independent Internal Audit Function which reports functionally to the Audit Committee and administratively to the Accounting Officer. The Internal Audit function is tasked with the responsibility to assist the Department to accomplish its objectives and to provide reasonable assurance on the adequacy, effectiveness, and efficiency of internal control, risk management, and governance. Internal Audit has direct access to the Audit Committee and regularly meets with the chairperson of the audit committee.

11.2. Internal Audit Risk – Based Audit Plan

Internal Audit developed and adopted a risk based Three (3) Year Rolling Plan and Annual Internal Audit Plan. The Annual Plan is based on risk assessment results and strategic risks identified by management. The Internal Audit plan is also based on risk ranking priority and is designed to provide an independent, objective assurance and advisory service, in an efficient and effective manner.

11.3. Performance against the approved plan

Internal Audit Unit conducted 100% of the planned audit assignments and managed to successfully complete its approved annual audit plan for 2016/17.

11.4. Audit Committee Scope of Work

Audit Committee scope of work is to provide oversight responsibility over the departmental financial reporting, systems of internal controls, risk management and governance processes. Audit Committee also exercised oversight over Internal Audit and the monitoring of compliance with laws, regulations and code of conduct.

11.5. Audit Committee Membership and Attendance

The Audit Committee in accordance with its terms of reference is appointed by the Accounting Officer in consultation with the Executive Authority. The Audit Committee consists of independent external members who are not in the employ of the Department. The Committee is required to meet at least four (4) times in a financial year. During the period under review, the Committee's term of office came to an end on 31 December 2016 and a new Committee took office on the 1st of January 2017. 12.1. Audit Committee Responsibility

The Audit Committee managed to successfully discharge its responsibilities as per the Public Finance Management Act and the Treasury Regulation. The Audit Committee adopted formal Terms of Reference as its Audit Committee Charter to regulate and govern its affairs.

12.2. Effectiveness of Internal Controls

The Audit Committee is satisfied that DPME maintains internal controls and systems designed to provide reasonable assurance on the adequacy, effectiveness, and efficiency of policies, procedures, the integrity and reliability of both financial and non- financial information and the safeguarding of assets.

12.3. Effectiveness of In - Year Management and Quarterly Reporting

The Audit Committee reviewed the In-Year Quarterly Reports submitted and noted areas of improvement in the content and quality of reported Organisational Performance Information prepared and submitted by management.

12.4. Evaluation of Finance Function

The Audit Committee considered the capacity, skill, and competency of the Finance Function and satisfied itself that the DPME has the appropriate and adequate resources.

12.5. Evaluation of Financial Statements

We have reviewed the Annual Financial Statements prepared by the department and based on the evaluation outcomes, the Audit Committee is satisfied that they complied in all material respect with the applicable accounting standards. The Audit Committee reviewed changes in accounting policies and practices. The committee's review also included the department's compliance with legal and regulatory provisions.

12.6. Evaluation of Risk Management

The committee reviewed the DPME's Enterprise Risk Management activities, and is satisfied with the policies, procedures and structures in place. However, the committee would like to drive the improvement of the maturity level of ERM within the department.

12.7. Evaluation of ICT Governance

The committee exercised oversight over the adequacy, effectiveness and efficiency of ICT Governance within the DPME, as per the Corporate Governance of Information and Communication Technology Policy Framework and the King IV code on Corporate Governance requirements. With exceptions noted from both Internal and External Audit reports, the committee is satisfied that key controls related to System Security are adequate, efficient and effective and working as intended. Management has however commenced with the improvement plan to improve the maturity level in this area.

12.8. Results of the Auditor General

The Audit Committee concurs and accepts the conclusions of the Auditor-General on the annual financial statements and is of the opinion that the audited annual financial statements be accepted and read together with the report of the Auditor-General.

The Audit Committee would like to commend the Accounting Officer and Team DPME for the commendable positive external audit outcome.

Mr. Nelson Miya

Chairperson of the Audit Committee

Date: 31st July 2017

PART D: HUMAN RESOURCE MANAGEMENT

1. Introduction

The information contained in this part of the annual report has been prescribed by the Minister for the Public Service and Administration for all departments in the public service.

2. Overview of Human Resources

- **The status of human resources in the department.**
 - Human resources in the department is highly regarded and plays a vital role in the achievement of departmental goals
- **Human resource priorities for the year under review and the impact of these.**
 - Reduction of vacancy rate to 10% or below, to ensure adequate human resource capacity to achieve departmental goals and objectives.
 - Appointment of 5% interns per annum, to expose graduates to the workplace and to generate a pool of candidates for the filling of entry level posts in the department.
 - 80% of the workplace skills plan implemented to ensure highly skilled staff
 - 100% submission of financial disclosures by the designated employees to mitigate against conflict of interests and to detect any corrupt activities in the department
- **Workforce planning and key strategies to attract and recruit a skilled and capable workforce.**
 - Workforce is planned in line with the departmental strategic objectives and available budget on compensation of employees, posts are prioritised in terms of their importance and urgency, posts are advertised nationally in the DPSA vacancy list and for SMS posts in two national newspapers in order to attract a large pool of suitable candidates.
 - All SMS members undergo technical and competency assessment tests.
- **Employee performance management.**
 - All employees are required to enter into performance agreements within three months of appointment and on a yearly basis, all employees go through formal performance assessments twice a year.
 - Employees whose performance exceeds the expectations are rewarded with performance bonuses.
 - Employees whose performance is below expectations are enrolled into performance improvement plans and attends training sessions to assist them to improve their performance.
- **Employee wellness programmes.**
 - There is a wellness programme in place in the department, the programme caters for physical, financial and emotional employee wellness.
 - There is a service provider on board to professionally assist departmental employees and their families on wellness issues, counsellors and other health professionals are available to staff and their family members 24 hours and 7 days a week.
 - Highlight achievements and challenges faced by the department, as well as future human resource plans /goals.
 - Slow pace in the filling of vacant funded posts is still a challenge though some improvement is noticed.
 - Above-average high turn-over rate is also a concern.
 - Newly approved organisational structure will help to address HR capacity challenges in the department.

3. Human Resources Oversight Statistics

3.1. Personnel related expenditure

The following tables summarises the final audited personnel related expenditure by programme and by salary bands. In particular, it provides an indication of the following:

- amount spent on personnel

3.2. Employment and Vacancies

The tables in this section summarise the position with regard to employment and vacancies.

The following tables summarise the number of posts on the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment.

This information is presented in terms of three key variables:

- programme
- salary band
- critical occupations (see definition in notes below).

Departments have identified critical occupations that need to be monitored. In terms of current regulations, it is possible to create a post on the establishment that can be occupied by more than one employee. Therefore, the vacancy rate reflects the percentage of posts that are not filled.

Table 3.2.1 Employment and vacancies by programme as on 31 March 2017

Programme	Number of posts on approved establishment	Number of posts filled	Vacancy Rate	Number of employees additional to the establishment
Administration	151	140	7,3%	2
Outcomes Monitoring & Evaluation (OM&E)	87	77	11,5%	1

Senior Managers: Corporate Services	4	4	0,0%	0
Total	27	21	22,2%	0

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation –
 - (a) in which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - (b) for which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - (c) where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - (d) in respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees.

3.3. Filling of SMS Posts

The tables in this section provide information on employment and vacancies as it relates to members of the Senior Management Service by salary level. It also provides information on advertising and filling of SMS posts, reasons for not complying with prescribed timeframes and disciplinary steps taken.

Table 3.3.1 SMS post information as on 31 March 2017

Salary Level 16	0	0	0
Salary Level 15	2	0	0
Salary Level 14	3	0	0
Salary Level 13	8	3	3
Total	13	3	3

Table 3.3.4 Reasons for not having complied with the filling of funded vacant SMS - Advertised within 6 months and filled within 12 months after becoming vacant for the period 1 April 2016 and 31 March 2017

Reasons for vacancies not advertised within six months
The Department of Planning, Monitoring and Evaluation underwent a process of restructuring which resulted in the delay of filling of senior posts until such time as the organisational structure was approved by the delegated authority
Reasons for vacancies not filled within twelve months
The filling of posts that were already in process was placed on hold until the restructuring process was finalised and the new organisational structure approved. This resulted in some positions that were funded on the old organisational structure being reviewed and in some cases new posts were created.
The filling of 2 x Level 14 post could not be finalised within 12 months as no suitable candidates could be identified through the normal recruitment process. The posts have since been re-advertised but filling is also delayed due to the restructuring process.

Notes

- In terms of the Public Service Regulations Chapter 1, Part VII C.1A.2, departments must indicate good cause or reason for not having complied with the filling of SMS posts within the prescribed timeframes. In the event of non-compliance with this regulation, the relevant executive authority or head of department must take appropriate disciplinary steps in terms of section 16A (1) or (2) of the Public Service Act.

3.4. Job Evaluation

Within a nationally determined framework, executing authorities may evaluate or re-evaluate any job in his or her organisation. In terms of the Regulations all vacancies on salary levels 9 and higher must be evaluated before they are filled. The following table summarises the number of jobs that were evaluated during the year under review. The table also provides statistics on the number of posts that were upgraded or downgraded.

Salary band	Number of posts on approved establishment	Number of Jobs Evaluated	% of posts evaluated by salary bands	Posts Upgraded		Posts downgraded	
				Number	% of posts evaluated	Number	% of posts evaluated

Senior Management Service Band D (16)	2	0	0,0%	0	0,0%	0	0,0%
Total	350	10	2,9%	0	0,0%	0	0,0%

The following table provides a summary of the number of employees whose positions were upgraded due to their post being upgraded. The number of employees might differ from the number of posts upgraded since not all employees are automatically absorbed into the new posts and some of the posts upgraded could also be vacant.

Table 3.4.2 Profile of employees whose positions were upgraded due to their posts being upgraded for the period 1 April 2016 and 31 March 2017

**CONSECUTIVE
CLEAN AUDIT**

I. Report of the Auditor-General

Report of the Auditor-General to Parliament on vote no. 8: Department of Planning, Monitoring and Evaluation

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Department of Planning, Monitoring and Evaluation set out on pages 111 to 162, which comprise the appropriation statement, the statement of financial position as at 31 March 2017 and the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Planning, Monitoring and Evaluation as at 31 March 2017, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standards (MCS) as prescribed and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
4. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' Code of ethics for professional accountants (IESBA code) together with the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matter

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

7. The supplementary information set out on pages 75 to 104 does not form part of the financial statements and is presented as additional information. We have not audited these schedules and, accordingly, I do not express an opinion thereon.

Responsibilities of the Accounting Authority

8. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with MCS as prescribed by National Treasury and the requirements of the PFMA and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, the accounting officer is responsible for assessing the Department of Planning Monitoring and Evaluation's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless there is an intention either to liquidate the department or to cease operations, or there is no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

10. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. A further description of my responsibilities for the audit of the financial statements is included in the annexure to the auditor's report.

Report on the audit of the annual performance report

Introduction and scope

12. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected programmes presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
13. My procedures address the reported performance information, which must be based on the approved performance planning documents of the department. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.

14. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected programmes presented in the annual performance report of the department for the year ended 31 March 2017:

Programmes	Pages in the annual performance report
Programme 2 – Outcomes Monitoring and Evaluation	39 - 48
Programme 3 - Institutional Performance, Monitoring and Evaluation	50 - 56
Programme 4 – National Planning	59 - 61

15. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

16. I did not identify any material findings on the usefulness and reliability of the reported performance information for the following programmes:

- Programme 2 – Outcomes Monitoring and Evaluation
- Programme 3 Institutional Performance, Monitoring and Evaluation
- Programme 4 National Planning

Other matters

17. I draw attention to the matters below.

Achievement of planned targets

18. Refer to the annual performance report on page(s) 31 to 65 for information on the achievement of planned targets for the year and explanations provided for the overachievement of a number of targets.

Adjustment of material misstatements

19. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of all selected programmes. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Report on audit of compliance with legislation

Introduction and scope

20. In accordance with the PAA and the general notice issued in terms thereof I have a responsibility to report material findings on the compliance of the department with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
21. I did not identify any instances of material non-compliance with selected specific requirements of applicable legislation, as set out in the general notice issued in terms of the PAA.

Other information

22. The Department of Planning, Monitoring and Evaluation's accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report thereon and those selected programmes presented in the annual performance report that have been specifically reported on in the auditor's report.
23. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
24. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed on the other information obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Internal control deficiencies

25. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance thereon. I did not identify any significant deficiencies in internal control

8. Statement of Accounting Policies and Related matters

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies which have been applied consistently in all material aspects unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information. The historical cost convention has been used except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation. Where appropriate and meaningful additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA) Act 1 of 1999 (as amended by Act 29 of 1999) and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1. **Basis of preparation:** The financial statements have been prepared in accordance with the Modified Cash Standard.
2. **Going concern:** The financial statements have been prepared on a going concern basis.
3. **Presentation currency:** Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.
4. **Rounding:** Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).
5. **Foreign currency translation:** Cash flows arising from foreign currency transactions are translated into South African Rands using the exchange rates prevailing at the date of payment / receipt.

6. Comparative information

Prior period comparative information: Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

Current year comparison with budget: A comparison between the approved final budget and actual amounts for each programme and economic classification is included in the appropriation statement.

7. Revenue

- 7.1 **Appropriated funds:** Appropriated funds comprises of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation). Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective. The net amount of any appropriated funds due to / from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.
- 7.2 **Departmental revenue:** Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund unless stated otherwise. Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.

7.3 **Accrued departmental revenue:** Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the department; and the amount of revenue can be measured reliably.
- The accrued revenue is measured at the fair value of the consideration receivable. Accrued tax revenue (and related interest and / penalties) is measured at amounts receivable from collecting agents. Write-offs are made according to the department's debt write-off policy.

8 Expenditure

8.1 Compensation of employees

8.1.1 **Salaries and wages:** Salaries and wages are recognised in the statement of financial performance on the date of payment.

8.1.2 **Social contributions:** Social contributions made by the department in respect of current employees are recognised in the statement of financial performance on the date of payment. Social contributions made by the department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.

8.2 **Other expenditure:** Other expenditure (such as goods and services transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.

8.3 **Accrued expenditure payable:** Accrued expenditure payable is recorded in the notes to the financial statements when the goods are received or in the case of services when they are rendered to the department or in the case of transfers and subsidies when they are due and payable. Accrued expenditure payable is measured at cost.

8.4 Leases

8.4.1 **Operating leases:** Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment. The operating lease commitments are recorded in the notes to the financial statements.

8.4.2 **Finance leases:** Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment. The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions. Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:

- cost being the fair value of the asset; or
- the sum of the minimum lease payments made including any payments made to acquire ownership at the end of the lease term excluding interest.

8.5 Payments for financial assets: Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings and/or under spending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable amounts but an estimate is included in the disclosure notes to the financial statements.

9 Aid Assistance

9.1 Aid assistance received: Aid assistance received in cash is recognised in the statement of financial performance when received. In-kind aid assistance is recorded in the notes to the financial statements on the date of receipt and is measured at fair value.

Aid assistance not spent for the intended purpose and any unutilised funds from aid assistance that are required to be refunded to the donor are recognised as a payable in the statement of financial position.

9.2 Aid assistance paid: Aid assistance paid is recognised in the statement of financial performance on the date of payment. Aid assistance payments made prior to the receipt of funds are recognised as a receivable in the statement of financial position.

10 Cash and cash equivalents: Cash and cash equivalents are stated at cost in the statement of financial position. Bank overdrafts are shown separately on the face of the statement of financial position as a current liability. For the purposes of the cash flow statement cash and cash equivalents comprise cash on hand deposits held other short-term highly liquid investments and bank overdrafts.

11 Prepayments and advances: Prepayments and advances are recognised in the statement of financial position when the department receives or disburses the cash. Prepayments and advances are initially and subsequently measured at cost and are only expensed when invoices / interdepartmental claims are received.

12 Loans and receivables: Loans and receivables are recognised in the statement of financial position at cost plus accrued interest where interest is charged less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.

13 Investments: Investments are recognised in the statement of financial position at cost.

14 Financial Assets

14.1 Financial assets (not covered elsewhere): A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial. At the reporting date a department shall measure its financial assets at cost less amounts already settled or written-off except for recognised loans and receivables which are measured at cost plus accrued interest where interest is charged less amounts already settled or written-off.

14.2 Impairment of financial assets: Where there is an indication of impairment of a financial asset an estimation of the reduction in the recorded carrying value to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset is recorded in the notes to the financial statements.

15 Payables: Loans and payables are recognised in the statement of financial position at cost.

16 Capital Assets

16.1 Immovable capital assets: Immovable capital assets are initially recorded in the notes to the financial statements at cost. Immovable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition. Where the cost of immovable capital assets cannot be determined reliably the immovable capital assets are measured at R I unless the fair value of the asset has been reliably estimated in which case the fair value is used. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R I. Immovable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the immovable asset is recorded by another department in which case the completed project costs are transferred to that department.

16.2 Movable capital assets: Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition. Where the cost of movable capital assets cannot be determined reliably the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R I. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R I. Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Biological assets are subsequently carried at fair value. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the movable asset is recorded by another department/entity in which case the completed project costs are transferred to that department.

16.3 Intangible assets: Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition. Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project. Where the cost of intangible assets cannot be determined reliably the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R I. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R I. Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the intangible asset is recorded by another department/entity in which case the completed project costs are transferred to that department.

17 Provisions and Contingents

17.1 Provisions: Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

17.2 Contingent liabilities: Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.

17.3 Contingent assets: Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.

17.4 Commitments: Commitments are recorded at cost in the notes to the financial statements when there is a contractual arrangement or an approval by management in a manner that raises a valid expectation that the department will discharge its responsibilities thereby incurring future expenditure that will result in the outflow of cash.

18 Unauthorised expenditure: Unauthorised expenditure is recognised in the statement of financial position until such time as the expenditure is either:

- approved by Parliament or the Provincial Legislature with funding and the related funds are received; or
- approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or
- transferred to receivables for recovery.

Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.

19 Fruitless and wasteful expenditure: recorded is equal to the total value of the fruitless and or wasteful expenditure incurred. Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables for recovery. Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.

- 20 Irregular expenditure:** Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the value of the irregular expenditure incurred unless it is impracticable to determine in which case reasons therefor are provided in the note. Irregular expenditure is removed from the note when it is either condoned by the relevant authority transferred to receivables for recovery or not condoned and is not recoverable. Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.
- 21 Changes in accounting estimates:** Changes in accounting policies that are effected by management have been applied retrospectively in accordance with MCS requirements except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such instances the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable. Changes in accounting estimates are applied prospectively in accordance with MCS requirements. Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the department shall restate the opening balances of assets liabilities and net assets for the earliest period for which retrospective restatement is practicable.
- 22 Events after the reporting date:** Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.
- 23 Agent-Principal arrangements**
- When the department is the principal it will recognise any payment made to the agent in the statement of financial performance. When the department is the agent it will recognise any fees received as departmental revenue in the statement of financial performance.
- 24 Departures from the MCS requirements:** Management has concluded that the financial statements present fairly the department's primary and secondary information and has not departed from the Standard.
- 25 Capitalisation reserve:** The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National/Provincial Revenue Fund when the underlying asset is disposed and the related funds are received.

- 26 Recoverable revenue:** Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.
- 27 Related party transactions:** A related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party. Related party transactions within the Minister's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.
- 28 Inventories (Effective from 1 April 2017):** At the date of acquisition inventories are recorded at cost price in the notes to the financial statements. Where inventories are acquired as part of a non-exchange transaction the cost of inventory is its fair value at the date of acquisition. Inventories are subsequently measured at the lower of cost and net realisable value or the lower of cost and current replacement value.
- 29 Public private partnerships**
- Public Private Partnerships are accounted for based on the nature and or the substance of the partnership. The transaction is accounted for in accordance with the relevant accounting policies. A summary of the significant terms of the PPP agreement the parties to the agreement and the date of commencement thereof together with the description and nature of the concession fees received the unitary fees paid rights and obligations of the department are recorded in the notes to the financial statements.
- 30 Key management personnel**
- Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the department. The number of individuals and their full compensation is recorded in the notes to the financial statements.
